SPRINGDALE PUBLIC WORKS DEPARTMENT SPECIFICATIONS AND BID DOCUMENT AGGREGATE BASE FOR PUBLIC WORKS PROJECTS IN 2015

January 2015

It is the intent of these specifications to provide aggregate base material to be picked up at the quarry or hauled from the quarry to the Springdale Public Works Department located at 269 East Randall Wobbe Lane in Springdale, Arkansas.

The aggregate base shall be aggregate base course class 7 stone so proportioned as to meet the requirements for a class 7 aggregate base as specified in Table 303-1 and 303-2 shown on page 186 of *Standard Specifications for Highway Construction, Arkansas State Highway and Transportation Department,* Edition of 1996.

Material furnished for aggregate base course class 7 shall have a percent of wear by the Los Angeles Test not greater than 45 as determined by AASHTO T 96.

The bidder shall attach to this bid document a copy of certified test results for both gradation of aggregate and percent of wear. The gradation test shall be as specified in section 306 of *Standard Specifications for Highway Construction, Arkansas State Highway and Transportation Department,* Edition of 1996. The percent of wear test shall be the Los Angeles Test as determined by AASHTO T 96. Certified test results shall be the most recent of record but no older than 12 months from the date of this bid document.
