"I certify under penalty of law that all soil disturbing activities have been completed and a uniform (e.g., evenly distributed, without large bare areas) perennial vegetative cover with a density of 80% of the native background vegetation cover for the area has been established on all unpaved areas and areas not covered by permanent structures, or equivalent permanent stabilization measures have been employed, or that all storm water discharges associated with the construction activities from the identified site that are authorized by Chapter 107 in the City of Springdale Code of Ordinances have been eliminated. I understand that by submitting this Notice of Termination that I am no longer authorized to discharge storm water by general permit, and that discharging pollutants in storm water associated with construction activity to waters of the City of Springdale is unlawful under Chapter 107 in the City of Springdale Code of Ordinances where the discharge is not authorized by grading permit.
