

Springdale Fire Department  
Policy & Procedures Manual  
Volume 1 – Administration  
Section 103 – Security  
103.4 – Security of Units and Stations

Security of SFD stations and units is a serious matter. Units and stations when unattended are to be secured. Exterior doors of stations shall be locked. Units leaving the station shall activate the timer system to lower all overhead doors after the door is safely cleared by the vehicle.

Personnel shall remain aware of the need of unit security. SFD units equipped with locks shall always be locked whenever left unsupervised, except when parked on emergency scenes. Additionally, personnel shall lock all compartments of units with compartment locks.

Personnel shall make every attempt to park units that are incapable of being locked in a manner and location that encourages visual contact.
