

Springdale Fire Department

Policy & Procedures Manual

Volume 3 – Training

Section 301 – General Training Procedures

301.1 – Springdale Fire Department Training Plan

The Springdale Fire Department follows a comprehensive training plan to meet established and industry accepted standards. The State of Arkansas, Insurance Services Office, Code of Federal Regulations, and National Fire Protection Association all have defined expectations for initial and continuing Firefighter and Emergency Medical Services Provider training. Meeting these varied standards requires a combination of training sources and programs.

In addition to meeting target numbers, training provides an opportunity for personal, professional growth and development. This helps individuals with achievement and the department with succession planning. Opportunities are provided both inside and outside of the department for individuals to meet promotional eligibility requirements and expand their breadth and depth of knowledge.
