

SPRINGDALE FIRE DEPARTMENT

Weekly/Monthly Check Explanations

Weekly Checks	
Air Cleaner	physical damage, obstructed
Air Tanks	physical damage, audible leaks, drain water from tanks
Batteries	physical damage, cells full, eye green, cable connectors secure, corrosion
Clean Engine/Undercarriage	pressure wash engine compartment/axles/ readily accessible undercarriage
Coolant	radiator full, look for leaks
Cooling Fan	physical damage, loose fasteners/bearings
Deck Gun	physical damage, all tips present, moves freely, secure
Drive Belts	physical damage, proper tension
Electrically Powered Equip/Tools	physical damage, exercise, proper operation, (including inverter and lights)
Engine Compartment	physical damage, air/fluid leaks, loose fasteners
Hoses	physical damage, leaks
Hydraulic Equipment/Tools	physical damage, oil level, exercise, proper operation
Inverter Operation	exercise, proper operation, outlets and external lights function
Knox Key Device	assure that key will release and relock
Power Steering Fluid	reservoir full, look for leaks
PPV/Saws	exercise, proper operation
Pump Test	perform per written pump test procedure
Undercarriage/Suspension	physical damage, air/fluid leaks, visibly loose fasteners/broken spring leaves
Windshield Wiper/Washer	reservoir full, operational
Monthly Checks	
Pump Pre-Connect Foam Line	Pump and ensure foam system delivers foam, flush system, refill foam as needed
Intake Relief Valves	exercise, proper operation
Ladders	clean and wax
Pump Transmission	proper oil level at sight glass
