STORMWATER PROGRAM

NOTICE OF TERMINATION OF GRADING PERMIT

Property Owner's Information:

Permittee Name: _____

Mailing Address: _____

City/State/Zip: _____

Phone: - - - - - - - - - - -

Operator's Information: (Responsible Party)

Name: _____

Mailing Address: _____

City/State/Zip: _____

Phone: - - - - - - - - - - -

Notice of Termination by Request - the Operator is requesting an inspection to prove that this project meets "Completion of Construction" requirements defined in Chapter 107.

Notice of Termination by Expiration - the Grading Permit has expired. Your project must meet Completion of Construction within 7 days, or an extension request in the form of a Grading Permit Application, revised SWPPP, and any compliance changes must be submitted and approved.

Notice of Termination by Review - during an inspection, a representative approved by the Director of Engineering has determined that Completion of Construction has been achieved, and has terminated your grading permit.

Notice of Termination by Director - the Director of Engineering, in conjunction with the Chief Building Inspector, has terminated your Grading Permit. This is either due to a failure to comply with Chapter 107 requirements or to protect the safety and welfare of the general public. Completion of Construction as defined in Chapter 107 is required within 7 days. (Requires Director Signature)

The Stormwater Manager or Director of Engineering must observe **Completion of Construction** prior to approving a Notice of Termination. The following is a required checklist which must be completed prior to the issuance of a Notice of Termination being issued. It shall be a violation of Chapter 107 if a Grading Permit is allowed to expire and **Completion of Construction** as defined in Chapter 107 has not been achieved.

Initial each when completed (to be completed by City Engineering Department Staff)

Completion of Construction – defined as any Construction Site with a Grading Permit in which:

development and grading within the disturbed area is complete and matches plans as approved by the Planning Commission, and

the disturbed soil area is observed to have 80% grass coverage and 100% stability, and

No slopes steeper than a 3:1 pitch unless otherwise approved in writing by the Director of Engineering, and

Notice of Violations issued have all corrective actions approved with an inspection report signed by a representative of the Director of Engineering, and

all heavy equipment, stockpiles, and construction site materials have been removed from the Construction Site.

This document is not valid until signed by the Director of Engineering or Stormwater Manager. If this document is signed below by the Stormwater Manager or Director of Engineering, the Grading Permit has been terminated. No further grading shall be permitted under this permit if this document is signed.
