Retention

Detention

By placing my professional stamp and signature on this paper, I certify that this detention pond is constructed according to the approved design on file with the City of Springdale. I further certify that all the drainage area designed to drain to this pond in fact does drain to said pond. **Calculations to determine the As-Built Storage Volume must be provided to the City of Springdale Stormwater Manager.**

### **Chapter 107.6 Maintenance of Stormwater Facilities**

#### *B. Inspection of Detention and Retention Systems*

All stormwater detention and retention facilities must be inspected annually by the responsible entity and/or by a licensed civil engineer to indicate that the facility is still in compliance with the originally approved design. A copy of this inspection shall be filed with the Engineering Department. Failure to inspect shall constitute a violation of this chapter. If the facility fails to perform per the original design specifications, then corrective action must be proposed, approved and completed within a time period to be specified. Failure to take corrective action within the specified time period is a violation of this chapter.
