Resident's Participation Plan (RPP)

Community Development Block Grant (CDBG) Program

Funds authorized by Congress under the Community Development Block Grant are made available to entitlement cities according to a formula allocation. The City of Springdale is classified as an Entitlement City and therefore receives the formula grant annually as participants in the program. Entitlement Grants are awarded for specific Program Years.

Program Year is defined as the authorized operating period of a particular program. The term is usually used to distinguish the program's operating period from the federal government's fiscal year. The City's CDBG Program Year is the 12 month period beginning July 1st in the fiscal year for which the appropriation is made and ending on June 30th the following year.

Low-and-moderate-income (LMI) is defined as a person or household having an income equal to or less than the Section-8 low-income limit adjusted for family size.

Additional information about the CDBG Program can be found on the City's web site at www.springdalear.gov

Applicability

1. The United States Department of Housing and Urban Development regulations require jurisdictions receiving CDBG Funds to adopt a Resident Participation Plan that sets forth the City's policies and procedures for resident's participation.
2. The legislation which created the CDBG Program and the regulation implementing it encourage the participation of residents in the development of the Assessment of Fair Housing, any revisions to the Assessment of Fair Housing, the Consolidated Plan, Action Plan, and the Consolidated Annual Performance & Evaluation Report.
3. These requirements are designed especially to encourage participation by low-and-moderate-income persons, particularly those persons living in areas designated by the City as a revitalization area or in a slum and blighted area and in areas where CDBG funds are proposed to be used and by residents of predominantly low-and-moderate-income neighborhoods, as defined by the City.
4. The City will take appropriate actions to encourage the participation of all residents, including minorities and non-English speaking persons, as well as persons with disabilities.

5. The City encourages the participation of local and regional institutions, Continuums of Care, businesses, developers, non-profit organizations, philanthropic organizations, community-based, and faith-based organizations in the process of developing and implementing the Assessment of Fair Housing, Consolidated Plan, and Action Plan.
6. The City also encourages in conjunction with the Springdale Housing Authority, the participation of residents of public and assisted housing developments (including resident advisory boards, resident councils, and resident management corporations) in the process of developing and implementing the Assessment of Fair Housing, Consolidated Plan and Action Plan, along with other low-income residents of the city's targeted revitalization areas.
7. The City shall make an effort to provide information to the Springdale Housing Authority about the Assessment of Fair Housing, Affirmatively Furthering Fair Housing strategy, and Consolidated Plan activities related to developments and surrounding communities in order for the Springdale Housing Authority to make this information available at annual public hearings.

These requirements are designed especially to encourage participation by low-and-moderate-income residents, particularly those living in slum and blighted areas and in areas where CDBG funds are proposed to be used and by residents of predominantly low-and-moderate-income neighborhoods as defined by the City.

Revisions:

1. An AFH previously accepted by the Department of Housing & Urban Development must be revised and submitted to HUD for review under the following circumstances:
 - a. A material change occurs. A material change is a change in circumstances in the City that affects the information on which the AFH is based to the extent that the analysis, the fair housing contributing factors, or the priorities and goals of the AFH no longer reflects actual circumstances. Examples include Presidentially-declared disasters, under title IV of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*), in Springdale that are of such a nature as to significantly impact the steps the city may need to take to affirmatively

further fair housing; significant demographic changes; new significant contributing factors in the city; and civil rights findings, determinations, settlements (including Voluntary Compliance Agreements), or court orders; or

- b. Upon the Department of Housing & Urban Development's written notification specifying a material change that requires the revision.
2. A revision pursuant to paragraph (1a) of this section consists of preparing and submitting amended analyses, assessments, priorities, and goals that take into account the material change, including any new fair housing issues and contributing factors that may arise as a result of the material change. A revision may not necessarily require the submission of an entirely new AFH. The revision need only focus on the material change and appropriate adjustments to the analyses, assessments, priorities, or goals.
3. Where a revision is required under paragraph (1a) of this section, such revision shall be submitted within 12 months of the onset of the material change or at such later date as HUD may provide. Where the material change is the result of a Presidentially-declared disaster, such time shall be automatically extended to the date that is 2 years after the date upon which the disaster declaration is made, and HUD may extend such deadline, upon request, for good cause shown.
4. HUD will specify a date by which the city must submit a revision of the AFH, taking into account the material change, the city's capacity, and the need for a valid AFH to guide planning activities. HUD may extend the due date upon written request by the city that describes the reasons the city is unable to make the deadline.

Volunteers

1. The CDBG Program Director encourages residents, businesses, offices, non-profit, for-profit, faith-based and school organizations, layman or professionals to volunteer to perform community service work on qualified single-family dwellings owned and occupied by extremely-low to low-moderate-income households. Encouraging citizens to perform housing rehabilitation work is good for the community, homeowner(s) and the City's Housing Services Program.
2. The City's Housing Services Program may provide the tools, equipment, materials, supplies, technical supervision, and other items necessary for individuals or groups to perform housing rehabilitation work. In the past, volunteers ranged from individuals to groups of seventy-five. Volunteers perform work that may take only an hour or two to complete such as landscaping for the handicapped or seniors, painting, or cleaning up. Volunteers may work up to several days to complete some projects such as installing vinyl siding and soffit, painting, cleaning, rebuilding porches, constructing wheelchair ramps, repairing fences, etc. Volunteers have saved the City's Housing Services Program as much as \$6,750 on just one single-family dwelling.
